1. Introduction

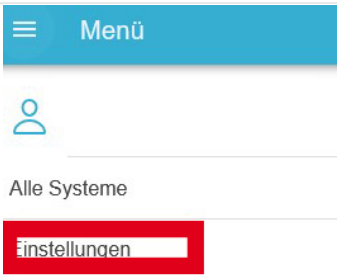

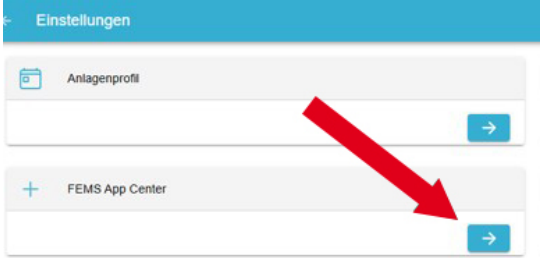

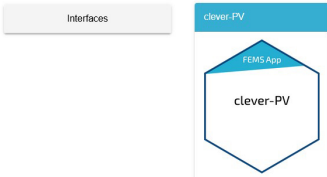

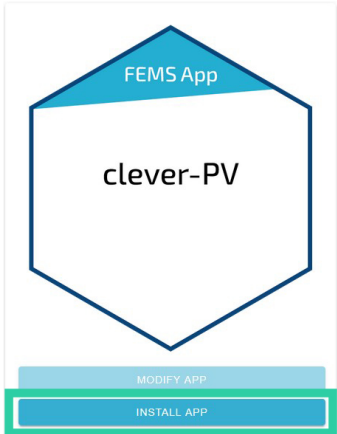

1. Introduction

Dear customer,

Thank you for choosing the "FEMS App clever-PV". You are welcome to send us your suggestions so that we can further improve the quality of our products.

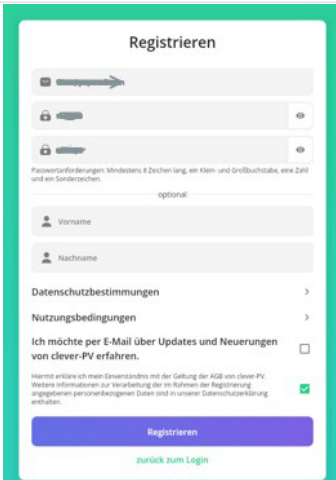

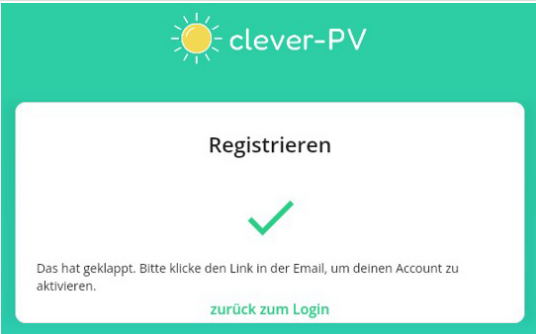

2. Installing the app

- Start in the FEMS Online Monitoring.

 The screenshot shows the 'Menü' (Menu) section of the FEMS Online Monitoring interface. It includes a user profile icon, the text 'Alle Systeme' (All Systems), and a red box highlighting the 'Einstellungen' (Settings) option.	1. Click on the burger menu at the top left in FEMS Online Monitoring. 2. Click on "Settings".
 The screenshot shows the 'Einstellungen' (Settings) page. It lists 'Anlagenprofil' (Plant profile) and 'FEMS App Center'. A red arrow points to the blue arrow icon next to the 'FEMS App Center' entry.	3. Click on the blue arrow next to the FEMS App Center button.
 The screenshot shows the 'Interfaces' section of the FEMS App Center. It displays a tile for 'clever-PV' with a blue arrow icon next to it.	4. Navigate to "Interfaces" and click on the tile FEMS App clever-PV.
 The screenshot shows the 'FEMS App clever-PV' installation screen. It features a large blue hexagon with the text 'FEMS App clever-PV' inside. Below the hexagon are two buttons: 'MODIFY APP' and 'INSTALL APP'. The 'INSTALL APP' button is highlighted with a green border.	5. Then click on "Install app".
 The screenshot shows the installation field for the FEMS App clever-PV. It includes a 'URL *' field with a generated URL, an 'Installationshinweis*' (Installation note) field, and a 'Does not use this URL' checkbox.	6. An installation field appears in which a URL must be entered. → This is generated by clever-PV.

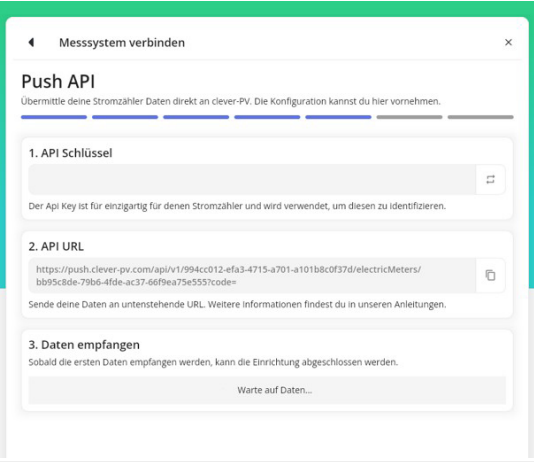

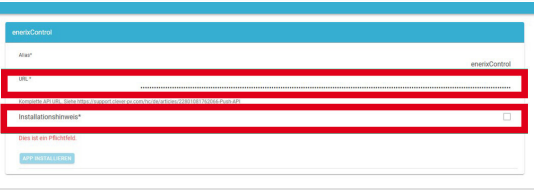

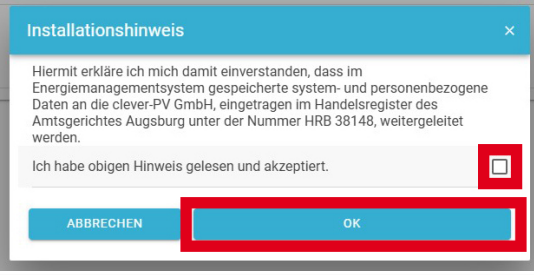

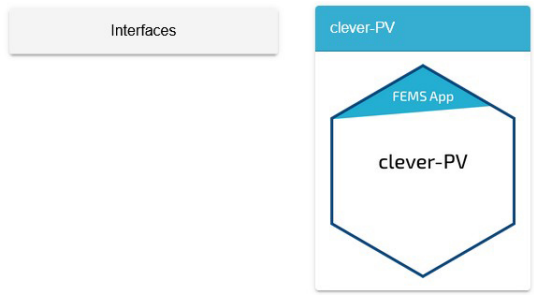

2.1. Establish a connection to clever-PV

- Open clever-PV, the online-based Home Energy Management System (HEMS) in a new browser tab.
 - On a mobile device: Alternatively, download the clever-PV app.
 - Click on "Register" at the bottom left.

	1. Fill in the registration form and then click on "Register".
	2. If your registration is successful, this window will appear and you will receive a confirmation by e-mail. 3. Open the e-mail and click on the link.
	4. Select "Back". → You will now see the login screen. 5. Log in with your data

2.1. Establish a connection to clever-PV

	6. Click on "Start setup" in the following screen.
	7. Choose the right measuring system depending on the size of your PV system.
	8. Select "Push API" from the list.
	9. The next step is to verify the account.

	10. The API URL is then displayed. 11. Copy the displayed URL to your clipboard.
	12. Paste the URL in the FENECON installation field
	13. After confirming the data protection notice, the app can be installed.
	14. Once the installation is complete, clever-PV can be found in the FEMS App Center under "Interfaces (Installed)".
	15. Clever-PV can now be used.

Descriptions of the full range of clever-PV functions can be found in the [Documentation of clever-PV](#).
